Travelling can take its toll on the face, and these [High Energy Pure Collagen Eye-Pads](#), also from [Byonik](#), target the delicate eye area and reduce the first signs of jet lag. Enriched with pure, freeze-dried collagen, they infuse the eye area with intense moisture and strengthen the skin with the brand's unique anti-ageing complex. They work to reduce puffiness—the first signs of days on the road—minimise fine lines and reduce the signs of tiredness.

### Byonik Concur Face Mist

Known for its cutting-edge facials, [Byonik](#) now has skin products to use at home—or on the go. The [Concur Face Mist](#) is like a speed-treatment in a bottle. Not only does it refresh the face, cooling it down, but it also has an anti-ageing formula *and* protects the skin from pollution and environmental damage. Simply mist it all over the face and neckline for immediate effects.
